REVIEWER'S REPORT

In this manuscript the Abstract is written in a detailed format in which all things such as sample, method, findings etc. has been mentioned properly. Also, the keywords are given properly.

Introduction

In the introduction part, the researcher has made link of introduction with the title and has given a detailed background effectively with proper citations.

Review of related literature

In this manuscript the researcher has mentioned the review of literature properly. It is essential for each and every research paper to have a section in which important studies related to the title and objectives are mentioned.

Methodology

Methodology is given in a proper way in this manuscript. Also, the researcher has mentioned the research questions or objectives properly in this manuscript such as

- To assess the level of emotional regulation among married male men
- Examine the relationship between emotional regulation and marital satisfaction
- Assess the level of Marital Satisfaction among Married male

Results

The result section is given in a proper way in this manuscript. The findings are given in detail with statistical proofs and essential graphs.

Discussion

The discussion section in this study is given properly but the researcher has not made comparisons of results with previous studies. Also, further suggestions, limitations and implications have not been provided by the researcher by which the validity of research papers decreases and becomes less effective.

Conclusion

Overall the research paper is good and important, and some important things have been mentioned properly but some are missing. Thus, this manuscript is accepted as it is.
