Reviewer Name: Mr. Javaid Ahmad Khan

### Detailed Reviewer's Report

This research paper deeply tried to evaluate the nutritional potential of foods sold to and consumed by students in primary schools in the Tiassalé department, located in the southern region of Côte d'Ivoire. In this manuscript the Abstract is written in a detailed format in which all things have been mentioned properly such as title, methods, sample, results, etc., Also, the keywords are given properly. In the introduction part, the researcher has made link of introduction with the title but the introduction is too short. This introduction can be elaborated. However, the researcher has provided the citations properly. The review of related literature is not given in this manuscript. It should be added. However, The Methodology is given in a proper way but the research questions or objectives are **not** given. Results are given properly and the discussion is in detail. Also, comparison of results with the findings of previous researches is given in this manuscript. However, the educational implications, limitations and further suggestions are not given in this manuscript properly, these must be added. Thus, this paper is accepted only after correcting these minor changes.

### Reason for Minor changes

Researcher has given very short introduction; it should be elaborated. Also, in this manuscript, the review of related literature is not given. It should be added. In methodology the researcher has not provided the research questions or objectives. Also, the educational implications, limitations and further suggestions are not given in this manuscript properly. These must be added. Thus, this paper is accepted only after these minor changes.

## REVIEWER'S REPORT

In this manuscript the Abstract is written in a detailed format in which all things such as sample, method, findings etc. has been mentioned properly. Also, the keywords are given properly.

### Introduction

In the introduction part, the researcher has tried to make link of introduction with the title, but this introduction is too short. It should be elaborated further. However, the citations are given properly.

### Review of related literature

In this manuscript the researcher has not mentioned the review of literature properly. It is essential for each and every research paper to have a section in which important studies related to the title and objectives should be mentioned.

### Methodology

Methodology is given in a proper way in this manuscript. In which the researcher has mentioned the tools, samples, tests applied etc. However, the research questions or objectives are not given.

### Results

The result section is given in a proper way in this manuscript, also the findings are given in detail with statistical proofs. Also, the researcher has provided the necessary graphs and charts in this manuscript.

### Discussion

The discussion section in this study is given properly and the researcher has made comparisons of results with previous studies. However, further suggestions, limitations and implications has not been provided by the researcher by which the validity of research papers decreases and becomes less effective.

### Conclusion

Overall the research paper is good and important, and some important things have been mentioned properly but some are missing. Thus, this manuscript is accepted only after making these minor changes mentioned above.
