Detailed Reviewer's Report

This research paper examined the utilization, opportunities, challenges, and pedagogical implications of artificial intelligence (AI) technologies in second language acquisition within the context of education in India. In this manuscript the Abstract is written in a detailed format in which all things have been mentioned properly such as title, methods, sample, results, etc., also, the keywords are given properly. In the introduction part, the researcher has made link of introduction with the title but the citations are very less. The review of related literature is not given in this manuscript. So review of literature should be added. The Methodology is not given. Also, the research questions or objectives are not mentioned in this manuscript. Results are not given properly with no mention of narrative/statistical proofs and the discussion is not given and comparison of results with the findings of previous researches is not made in this manuscript. Also, the educational implications, limitations and further suggestions are not given in this manuscript. Thus, this paper is accepted only after correcting these minor changes.

Reason for Minor changes

In this manuscript, the citations in the introduction section are very few, most of the statements are given without citations. Also, the review of literature is not given. Methodology is also missing. No mention of research question in this manuscript. The result section is missing; no results are given with narrative/statistical proof. Discussion section is not given. Also, there is no comparison of findings with the findings of previous researches. Thus, this paper is accepted only after these minor changes.

REVIEWER'S REPORT

In this manuscript the Abstract is written in a detailed format in which all things such as sample, method, findings etc. has been mentioned properly. Also the keywords are given properly.

Introduction

In the introduction part, the researcher has tried to make link of introduction with the title properly. However, the citations are very few. Maximum statements are without proper citations. Without proper citations no statement is considered as valid.

Review of related literature

In this manuscript the researcher has not mentioned the review of literature. It is a very necessary section for any research work. There should be mention of previous studies and the major findings of these previous studies.

Methodology

Methodology is not given in this manuscript. Also no mention of research objectives or questions. Methodology section is also necessary in which the researcher has to mention the tools, samples, tests applied etc. Also, there should be mention of the research questions or objectives.

Results

The result section is not given in this manuscript, also the findings are not given in detail as no statistical/narrative proofs are given. Thus it should be revised.

Discussion

The discussion section in this study is not given. Also, the researcher has not made comparisons of results with previous studies. Also, further suggestions, limitations and implications have not been provided by the researcher in this manuscript by which the validity of research papers decreases and becomes less effective.

Conclusion

Overall the research paper is good and important, and some important things have been mentioned properly but some are missing. Thus, this manuscript is accepted only after making these minor changes mentioned above.
