REVIEWER'S REPORT

In this manuscript, Abstract is given properly. The Abstract must be written in a detailed format in all research papers, in which all things such as sample, method, findings etc. should be mentioned properly. Here this condition is satisfied. Also, the keywords are given in this manuscript properly.

Introduction

In the introduction part, the researcher has tried to make link of introduction with the title effectively. But, in the introduction section, the citations are not given. The citations are very important these must be added.

Review of related literature

In this manuscript the researcher has mentioned the review of literature. It is a very necessary section for any research work. There should be mention of previous studies and the major findings of these previous studies. This condition is also satisfied here.

Methodology

Methodology section is given in this manuscript properly, also the research objectives or questions are given such as 1. To study the level and major sources of academic stress among MBA students. 2. To identify the major indicators associated with academic burnout. 3. To examine the coping mechanisms used by MBA students to manage academic pressure. 4. To understand the practical implications of stress and burnout for students and educational institutions. 5. To suggest measures for reducing avoidable academic pressure and strengthening healthy coping. It is necessary to mention the research questions or objectives of research in the methodology section. This condition was also fulfilled properly.

Results

The result section is given properly in this manuscript and there is statistical proofs given for the results.

Discussion

The discussion section in this study is given. Also, the researcher has made comparisons of results with the findings of previous studies. The educational implications, limitations, recommendations and further suggestions have been provided by the researcher in this manuscript by which the validity of research papers increases and becomes more effective.

Conclusion

Overall the research paper is good and important, and almost all important things have been mentioned properly. Thus, this manuscript is accepted as it is.
