REVIEWER'S REPORT

In this manuscript, Abstract is given properly. The Abstract is always written in a detailed format in all research papers, in which all things such as sample, method, findings etc. are mentioned properly. Also, the keywords are given in this manuscript properly.

Introduction

In the introduction part, the researcher has tried to make link of introduction with the title but in the introduction section, the citations are not given properly. These must be added.

Review of related literature

In this manuscript the researcher has not mentioned the review of literature. It is a very necessary section for any research work. There should be mention of previous studies and the major findings of these previous studies.

Methodology

Methodology section is not given in this manuscript, also the research objectives or questions are not given. It is necessary to mention the research questions or objectives of research in the methodology section.

Results

The result section is not given in this manuscript and there is no narrative/statistical proofs given. So these should be added.

Discussion

The discussion section is not given in this study and the researcher has not made comparisons of results with the findings of previous studies. Also, further suggestions, limitations and implications have not been provided by the researcher in this manuscript by which the validity of research papers decreases and becomes less effective.

Conclusion

Overall the research paper is good and important, and some important things have been mentioned properly but some are missing. Thus, this manuscript is accepted only after making these major changes mentioned above.
