Detailed Reviewer's Report

- **Originality:** The manuscript presents a relevant and interesting interdisciplinary perspective.
- **Relevance:** The topic is highly relevant to Indian Knowledge Systems and contemporary governance.
- **Research Gap:** The research gap is identifiable but could be stated more clearly.
- **Literature Review:** The literature review is adequate but may benefit from a few more recent references.
- **Methodology:** The conceptual methodology is appropriate, but further methodological clarity is suggested.
- **Content Quality:** The manuscript provides a meaningful discussion of Kautilyan principles and their contemporary relevance.
- **Analysis:** The comparative analysis between ancient governance principles and Corporate Secretarial practices is useful.
- **Structure:** The manuscript is logically organised and generally easy to follow.
- **Language & Presentation:** The language is clear and academic, with only minor revisions required for consistency and presentation.
- **Overall Assessment:** The manuscript has academic value and scope for publication after minor improvements.
