

REVIEWER'S REPORT

Manuscript No.: IJAR-59302

Title: Interactive Effects of Tillage Practices and Nitrogen Levels on Maize Growth, Yield, Nitrogen Use Efficiency, and Soil Properties,

Recommendation:

Accept as it is.....

Accept after minor revision...**Accept**

Accept after major revision.....

Do not accept (*Reasons below*)

Rating	Excel.	Good	Fair	Poor
Originality	Excel.			
Techn. Quality		Good		
Clarity		Good		
Significance		Good		

Reviewer's ID: **JPR-282**

Detailed Reviewer's Report

Overall assessment: The topic is relevant, but several major issues should be resolved before the findings can be interpreted. clarify the split-plot randomization and true replication, define NUE explicitly, reconcile the timing of soil sampling with treatment-related SOM claims, verify the baseline soil values, and recheck the ANOVA/p-values and conclusions. The manuscript also requires substantial language and formatting editing.
